

2026 Year 7 Student Resource Scheme

Dear Parent/Carer,

Student Resource Scheme (SRS) 2026

This letter includes important information about the fees and inclusions for the SRS. If you have previously opted in to the SRS your participation is assumed for the remainder of your child's enrolment, unless you inform the school otherwise by completing a new participation agreement form. If you are a new parent to the school, this information will assist you in making a decision as to whether you wish to participate in the SRS

The cost of supplying textbooks for students and of purchasing equipment such as uniforms, drawing equipment, writing materials, consumable equipment is increasing each year. In an attempt to keep the rising costs financially manageable for most families, the school invites parents to consider the Student Resource Scheme. The scheme has many benefits for both students and parents. Families who choose to become members of the Student Resource Scheme will have access to textbooks and some consumables within Technologies and The Arts subjects from the beginning of the school year. Students will also have access to wide range of supplementary resources not possible without the Student Resource Scheme

What is provided Queensland Government?

The Queensland Government supports children's education by providing funding for instruction (teachers), facilities (school grounds and buildings, internet), and administration (staff to run the school). Funding for schools does not extend to individual student resources such as textbooks, equipment for personal use, and many items used by the student in the classroom.

The SRS helps parents to source these resources. The school can purchase resources at lower rates due to its bulk buying power. Resources such as textbooks or musical instruments that will be used over a period of time are hired to students to further reduce costs for families. Participating in the SRS also offers a convenient way for parents to source the items that their child needs for school and ensures that all students have access to the same standard of resources.
