The Student Device Purchasing Scheme

The Student Device Purchasing Scheme at Gordonvale State High School provides students with access to laptops through a flexible payment plan. The school purchases laptops, which are then made available to eligible students along with damage protection and a carrying case. Payments are spread over a three-year period, with options for weekly, fortnightly, or monthly instalments. Once the device is paid in full, ownership transfers to the student.

The school retains ownership during the payment period, allowing for the installation of essential software, warranty management, and internet safety features. At the end of the agreement, the laptop is restored to factory settings, and students then take ownership for a \$25 administration fee (which is included in the repayment Schedule).

If a student leaves the school before the payment term ends, the remaining balance must be settled by last day of enrolment.

Parents, students, and the school formalize this arrangement through a Charter Acceptance to ensure all parties understand their responsibilities.
